

## “Under God’s Blessing, I Became Recognized in My Workplace.”

Deacon Hakyun Sung (15th Parish, Director of Research and Development at Daeho Inc)

I majored in animal resources science in Sungkyunkwan University and received a Doctor’s Degree in agricultural science in August of 1999. In July 2000, I began working as a postdoctoral researcher at the British Columbia University, Canada and Agriculture and Life Science Research Institute at Taiwan National Research Center. 3 years later I came back to Korea, and started to work as a visiting researcher at the College of Agriculture and Life Science Department, Seoul National University from June 2003 to February 2007, and then I entered Daeho Inc., a livestock industry-related company.

Daeho Inc. is a company that manufactures and provides animal medicines, subsidiary feeder (excipient) and feed ingredients and works for the development of Korean eco-friendly livestock industry under the motto ‘Abundant Life and Pleasant Environment.’ I want to confess that all of this was God’s favor and love that I could work in this company.

### ■ Is There Such a Pastor in Korea?

I have been a Christian since I was in my mother’s womb but grew up without special spiritual experience. When I was in high school, I had a motorcycle accident in which my spirit left and came back to my body. Since then, I came to realize the spiritual realm which

is invisible. While living in a foreign country, my wife Deaconess Sungsook Lee, who had led an earnest life of faith at our church since before our marriage, introduced to me the powerful works of God manifested by Dr. Jaeroek Lee.

The ultimate reason that I became a Manmin member was that in October 2002 I watched the 2002 Miracle Healing Prayer Festival in India, which was attended by overall 3 million people. At that time I was staying in Taiwan and watched the crusade through a video tape. I was greatly touched to see Senior Pastor earnestly preach the message even while the heavy rain was pouring. I thought, ‘Was there such a pastor in Korea? Why didn’t Korean churches make him known?’

In March 2003, right after I came back to Korea from Taiwan, I began attending Manmin Central Church. I thought I was leading a good life of faith, but didn’t experience big growth in my faith.

### ■ My life Changed through the Powerful Works of God

In January 2009, my mother was diagnosed with the early phase of breast cancer and underwent an operation. After she stayed in the hospital for 10 days, she didn’t go to her house in Ichon City but instead attended the Divine Healing Meeting at Manmin Prayer Center in Seoul by the guidance of my

### ■ Dr. Sung! You Got a Promotion!

After I went to work for Daeho Inc., I tried to develop a new product. Even though I underwent some difficulties working with my colleagues, I tried my best as a Christian. I succeeded in striking deals with big companies that the company had failed in despite years of effort and contributed a lot to our company’s experiencing a 20% increase in sales in spite of world economic recession and the decrease in the number of people in the livestock industry.

On February 15, 2010, we had a New Year’s greeting with Senior Pastor during the New Year’s holiday. I heard the message about how we could receive God’s blessing from Senior Pastor, and then I shook hands with him with a wish that I could be recognized as an excellent worker in the company. Then on Thursday of the very week, I was promoted to the position of the General Manager of the Headquarters of Research and Development from the position of a Manager of Central Research Institute. I was reminded of Senior Pastor’s prayer of blessing. I was overjoyed thinking, ‘God blessed me just as I had desired!’ The more surprising thing was that this position hadn’t previously existed and wasn’t even discussed during the human resources meeting. So this was a really unexpected thing for all of us.

Generally speaking, a manager is the highest position in the laboratory and above that there are only salary class increases. So I was overjoyed by this unexpected promotion through the company’s recognition for my 3-year contribution. Now I have two positions in the company concurrently as a Manager of Central Research Institute and the General Manager of the Headquarters of Research and Development, which is almost the same level with the board directors. I came to establish a solid foothold in the company. Not only do I work for the eco-friendly livestock industry dealing with aspects of promotion of livestock productivity and produce of functional livestock product, maintaining and enhancing the feed quality, and developing new products but also take charge of marketing business by gaining many clients at home and overseas and publicizing new products to them. I give all the thanks and glory to God for overflowing blessing and I also want to thank Senior Pastor for his prayer.

wife. Then the spirit of repentance came upon her and she uncontrollably burst into sobbing and repented of her past. At the moment she had an experience that a light entered into the part of her body where she had received a surgery. From that point on, the aftereffects from breast cancer surgery were all gone and the severe pain from arthritis on the both knees also disappeared. A few months later she was diagnosed with the first degree of visual impairment, but

after applying Muan Sweet Water on her eyes and drinking it, she regained her sight. What is more, the coughing that tormented her every night had also gone. She became a big fan of Muan Sweet Water. Also, I saw my son, who suffered from otitis media, perfectly healed after dipping himself in Muan Sweet Water during his visit to the site of Muan Sweet Water. Through these experiences, I came to acknowledge the living God and tried to change myself.

Deaconess Changhee Park (16-2nd Parish)

Thirty years ago, I met the living God and was healed of tuberculosis and happily led a Christian life. However, the first love toward God and my life of faith became lukewarm. I began suffering from a cough and sputum in the throat.

## “The Cough and Sputum in the Throat That I Suffered for 20 Years Were Gone”

Nobody can even imagine the pain that I suffered unless he has experienced it. Because I woke up while sleeping and struggled with cough and sputum every night, I always felt tired.

I led a Christian life at Manmin Central Church since 2008. Although I witnessed the powerful works of God happening in the church, I couldn’t receive healing of my symptoms. As I didn’t receive healing after receiving the prayer several times, I almost gave up. In early February, I attend Daniel

Prayer Meeting and thoroughly repented having stopped praying. When I heard that if we would receive the prayer of blessing with faith during the New Year’s holiday, God would let us discover and demolish our frames and self-righteousness and heal our diseases, I was very impressed.

In the dawn of February 12, I fell asleep with longing heart and expectations after reading the Bible. In a dream, Senior Pastor appeared to me and softly holding my hands said, ‘The first love’ and ‘Change’.

I was very happy after waking up from the dream. On that day of the New Year’s greeting with Senior Pastor, Senior Pastor prayed for us with the message of blessing. I accepted the message by answering ‘Amen’ and shook hands with him with an earnest desire that God might heal me of the symptoms of cough and having sputum in the throat. Just as I desired, the cough stopped and sputum disappeared from that very day. I am so happy that I can sleep comfortably every night these days.

NO. 174 MARCH 14, 2010

## The 10<sup>th</sup> Anniversary Celebration of Muan Sweet Water

The Salty Water Turned into Sweet Water and the Works of Holy Spirit were Manifested

Even today, many Christians are visiting this scene of God’s power where the sea water was turned into sweet water near Muan Manmin Church located at San 153, Chunjang-ri, Haeje-myeon, Muan-gun, Jeonnam Province.

The miracle of Muan Sweet Water, through which many people around the world have experienced healing and the powerful works of God, was commemorated in the 10th anniversary celebration worship service and other events at the site. On March 4, Muan Manmin Church offered the 10th Commemoration Anniversary Service with the Speaker,

Dr. Esther Chung. The service was followed by performances celebrating the site’s anniversary.

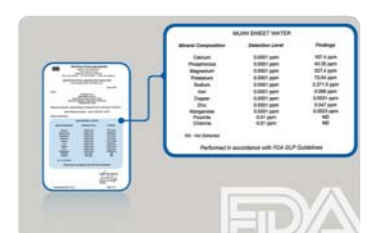

Surrounded by sea, Muan Manmin Church (Pastor Myungsul Kim) had suffered from water shortage. While they eagerly prayed for God’s miracle, they experienced their well’s salty water being turned into sweet water in March 2000 through Dr.

Jaeroek Lee’s prayer transcending space and time. This was made possible because they believed in the biblical miracle of the bitter water of Marah being turned into sweet water by Moses’ prayer (Exodus 15:25) and they prayed with faith. Not only did the water become drinkable water, but also amazing works of power were manifested through the water. Those

who drank or applied the water with faith were healed of various diseases and received answers to their desires.

In December 2006, Muan Sweet Water Managing Committee was formed under the leadership of the Committee President, Elder Charles Chung. The excellent quality of Muan Sweet Water was proven scientifically. The Muan Sweet Water Managing Committee sent a sample of Muan Sweet Water to the US Food and Drug Administration (US-FDA) and requested a water quality test. The test results verified that Muan Sweet Water has even more mineral contents than the world-renowned wells of France and Germany. The Muan Sweet Water Managing Committee tries to maintain the water quality by conducting water quality testing on a regular basis, and registered a trademark according to the Korean trademark law.

One of the extraordinary things that has been discovered is that the salt water fish and the fresh water fish can co-exist in Muan Sweet Water. Except for a limited number of species, it’s impossible for the sea water fish and fresh water fish to live in the same water due to the differences in the conditions of their living environments. But we could see that 400 different kinds of salt

The FDA test results sent to Muan Sweet Water Managing Committee in October 2007

water fish such as banded hound shark and the goby can live together with fresh water fish such as carp and mandarin fish in the Muan Sweet Water Aquarium of Manmin Central Church. Currently visitors can see 120 different kinds of fish of the sea and fresh water fish living together in a huge aquarium.

To witness this scene of God’s power, not only Korean members, but also visitors from overseas have continued to visit this place. This past July, the church also constructed a beach to use it as a resort facility for visitors by spreading sand.

With the relocation of Jeonnam Government to Muan, the opening of West Coast Highway, the establishment of Muan International Airport and the development plan by Muan City, the Muan Sweet Water Site is preparing to become a world-renowned spot for visiting Christians.

## The 29<sup>th</sup> Anniversary Service of Masan Manmin Holiness Church and the Celebration Event

The 29<sup>th</sup> Anniversary Service of Masan Manmin Holiness Church pastored by Rev. Sangtae Kim was offered with celebration events during the Sunday Evening Service on February 28. President of Masan Prayer Center, Boknim Lee, preached at this service.

The first part of the service was presided by Pastor Sangtae Kim. The representative prayer was offered by Elder Yooho Kim, a song and a performance by the choir and the Nissi Orchestra of Masan Manmin Holiness Church, and then,

On Sunday of February 28, there was the 29th Anniversary Service of Masan Manmin Holiness Church and the celebration event with the Speaker President Boknim Lee (located in the middle of the second row).

President Boknim Lee preached under the title ‘Fruit of Blessing’ based upon the Scripture from Numbers 6:24-26. In her message President Boknim Lee preached, ‘To bear the fruit of blessing, first, we should not have discomfort in our heart. Secondly, we have to

choose the goodness in our decisions. Thirdly, we should have peace coming from above. And fourthly, we have to send out the aroma of Christ.’ The second part was the celebration events started with the opening performance of Nissi Orchestra. The Lord’s servants and elders offered a special song. Local members together with the Dance Mission Team presented a biblical play with the theme ‘Love’. The United Choir, Ezer Mission Team and the congregation together offered praise and Pastor Sangtae Kim delivered the greeting message.

## “I Also Experienced the Power of God”

Mrs. Elena de Carrión Medina (Cuenca Christian Center, Ecuador)

I translated Dr. Jaeroek Lee’s book *Awaken Israel* into Spanish, and I am currently translating *Man of Flesh, Man of Spirit I, Manmin*

News and Rev. Dr. Jaeroek Lee’s sermons. Through this experience, I read about the power of God and came to have faith. My grandmother suffered from renal failure and a few days ago she was in critical condition. So I requested prayer from Dr. Jaeroek Lee. After she received his prayer transcending space and time from Manmin Central Church in Seoul, my grandmother’s health

was miraculously restored.

After prayer, her level of creatinine, which was about 4 times higher than normal returned to a normal level and she no longer needed dialyses. The second and third exams requested by doctors showed that all other organs in her body are in perfect health. The doctors couldn’t explain how her critical condition could turn to stable in a matter of just one day. They admitted it must have been a miracle! My grandmother asked me to send her gratitude to Senior Pastor for his prayer.

THE FRUIT OF THE SPIRIT (9)

# Self-control

"But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, self-control; against such things there is no law." (Galatians 5:22-23)

The dictionary says self-control is restraint exercised over one's own impulses, emotions, or desires. We can see in this world that those who do not have self-control make their lives complex and cause difficulties for themselves. The self-control can never be stressed enough for not only worldly people but also God's children.

### 1. The importance of self-control

The fruit of self-control, as in one of the fruits of the Holy Spirit, does not simply refer to controlling ourselves from committing sins. The self-control as in one of the fruits of the Holy Spirit controls other fruits of the Holy Spirit to make them perfect. It is like an arbitration center that gives harmony and order, when other fruits of the Spirit borne in heart are shown outside.

Even when we pursue something good in the Lord, the most is not always the best. In spirit, too, we have to do everything in moderation following the desires of the Holy Spirit. We can prioritize work to be done first and that which can be done later. We can determine whether we should go forward or step back. We can have this kind of discernment through this fruit of self-control.

If somebody has borne all the fruits of the Holy Spirit completely, it means he is following the desires of the Holy Spirit in all things. In order to follow the desires of the Holy Spirit and act in perfection, we have to have the fruit of self-control. That is why we say that all the fruits of the Holy Spirit are completed through this fruit of self-control, the last fruit.

### 2. How can the fruit of self-control be shown?

1) If we bear the fruit of self-control, we will follow the order in all things.

We understand our position in the order. We understand when we should act and when we should not and the words that we should or should not speak. So, we don't do anything that is inappropriate or things that go beyond the limits of our position. For example, suppose the leader of a company asked one of his subordinates to do a certain work. This man is full of passion, and he feels that he has a better idea, so he changed some things at his discretion and did the work accordingly. Then, even though he worked with so much passion,

Senior Pastor Dr. Jaerock Lee

it means he did not keep the order due to the lack of self-control.

2) Secondly, we can consider the contents, timing, and the location even when we do something good.

For example, to cry out in prayer is something good, but sometimes when you cry out in prayer, instead of giving God glory if you cry out without discretion, it may disgrace God. Also, when you preach the gospel or visit the members for spiritual guidance, you should have discernment of the words you speak. Even though you received much grace from a spiritual message, you cannot just spread it to everybody. If you deliver something that does not suit the measure of faith of the listener, then it may cause that person to stumble or pass judgment and condemnation. Likewise, even though you are doing something very good, you should consider all kinds of situations and exercise self-control.

3) Thirdly, you should not react hurriedly to situations, but calmly act with discernment.

Those who have no self-control are impatient and lack consideration for others. As they hurry, they have less power of discernment, and they may miss some important things. They hastily pass judgment and condemnation that causes discomfort for others. In particular, those who are impatient while they listen to or speak with others often tend to make many mistakes. We should not impatiently interrupt while someone else is talking. We should listen carefully until the end so we can avoid hasty conclusions. Furthermore, this way we can understand the intention of that person and react to it accordingly. Proper discernment that enables us to react

appropriately comes from self-control.

Those who have self-control will not be easily shaken by other people's words. They can calmly listen to others and can discern the truth by the works of the Holy Spirit. If they discern with self-control and answer, they can reduce many mistakes that may be caused due to improper and hasty decisions. Then, to the extent that they exercise discernment through self-control, they will have authority and influence in their words, so their words can have a heavier impact on others.

### 3. How can we bear this important fruit of self-control?

1) First, we must have unchanging hearts.

If we cultivate truthful hearts that have no falsehood or deceitfulness, we can have the power to do what we decide to do. Of course, we cannot just cultivate this kind of heart overnight. We need to keep on training ourselves, beginning with keeping our hearts in small things. Once we make up our mind, we have to keep it without changing it to pursue personal benefit. As we continue this effort, we will finally have unchanging hearts and the power of self-control.

2) We should train ourselves to listen to the desires of the Holy Spirit, be led by the Spirit and not let ourselves go ahead first.

Before we start doing what seems urgent or good in our sight, we first have to try to listen to the voice of the Holy Spirit. Then, as we receive the voice and guidance of the Spirit, we need to obey it. If we always listen to the desires of the Holy Spirit and obey it all the time, then we can discern between even very delicate matters. With this discernment, we can always act in harmony and in order.

Dear brothers and sisters in Christ, if you bear these fruits of the Holy Spirit, you will receive whatever you ask of God and you can prosper in all things by the attestations of God. I hope you will long for the fruits of the Holy Spirit more than any other treasure of the world and make them yours.

## Brief News

### The 16<sup>th</sup> Anniversary Service of Ida Manmin Church

Ida Manmin Church (Pastor Seung-gil Ryu) had its 16<sup>th</sup> Anniversary Service and held the Pastors and Church Workers' Seminar with the Speaker Dr. Esther Chung, Vice President of the United Holiness Church of Jesus Christ on February 28.

The whole congregation prepared for this day with one heart by offering 40-day-relay-fasting prayer. At this service, Dr. Esther Chung preached under the title 'Three Questions' (Luke 10:30-37) and during the Celebration Event, 12 different teams of Ida Manmin Church glorified God with various kinds of performance.

At the seminar that was held at the Hall of Manmin Day Service, Mitsubasa (a welfare facility for the aged) for 2 days, February 28 and March 1, Dr. Esther Chung delivered her message entitled 'Influential Christians.' The pastors and church workers from Nagoya, Matsumoto, Tokyo, Asahikawa, Okayama and Yachiyo attended this seminar.

### Kinshasa Manmin Church Held Women's Seminar

On February 22, at the Women's Seminar held in Kinshasa Manmin Church, DR Congo, the participants are paying attention to the Speaker's message.

Kinshasa Manmin Church, DR Congo held a Women's Seminar with Senior Deaconess Insook Yoon, wife of Bishop Dr. Myongho Cheong, Chairman of the United Holiness Church of Jesus Christ, Africa, and ministering to Nairobi Manmin Holiness Church, Kenya. This seminar was held at the request of the women leaders in Kinshasa and was presided over by the Deaconess Rose, the President of Women's Mission of Kinshasa Manmin Church. There were about 200 people in attendance. With her personal testimonies, Senior Deaconess Yoon preached about Queen Esther in the Old Testament and how women have to serve the church and be faithful for the kingdom of God.

### New Semester Began for Manmin Bible Academy

Manmin Bible Academy arms members with the Word. The first semester of 2010 began on March 8 will last for 10 weeks. The lectures are held every Monday from 8 PM to 10 PM.

The students participate in an elementary class that consists of 'The New and Old Testaments' taught by Pastor Gamaliel Lee and 'The Message of the Cross' taught by Pastor Miyoung Lee and Pastor Youngsik Kang. In the intermediate class they learn 'The Measure of Faith' led by Pastor Daehee Cho and 'Men of Spirit' taught by Pastor Hakyoung Lim and Pastor Soojung Kim. There is an advanced class they can attend, consisting of 'Spirit, Soul and Body' taught by Pastor Dongcho Shin and Senior Deaconess Geumsun Vin. They also watch the 'The Power of God' DVD. The students offered the opening Service in the Second Sanctuary of Manmin Central Church at 8 PM on Thursday, March 4. Pastor Gamaliel Lee, the President of Manmin Bible Academy preached at this service.

## The Confession of Faith

1. Manmin Central Church believes that the Bible is God-breathed Word that is perfect and flawless.  
2. Manmin Central Church believes in the unity and the work of God the Trinity: God the Holy Father, God the Holy Son, and God the Holy Spirit.  
3. Manmin Central Church believes that we are forgiven of our sins only by the redeeming blood of Jesus Christ.  
4. Manmin Central Church believes in the resurrection and ascension of Jesus

Christ, His Second Advent, the Millennium, and the eternal heaven.  
5. Members of Manmin Central Church confess their faith through "The Apostles' Creed" each time they come together and believe in its content verbatim.  
"God Himself gives to all people life and breath and all things." (Acts 17:25)  
"And there is salvation in no one else; for there is no other name under heaven that has been given among men by which we must be saved." (Acts 4:12)

# Manmin International Seminary (MIS) is Training Pastors around the World with the Holiness Gospel

"For the earth will be filled with the knowledge of the glory of the LORD, as the waters cover the sea." (Habakkuk 2:14)

Dr. Esther Chung  
(President of MIS)

There are many pastors who were impressed by Manmin ministry and long for the holiness gospel. They have requested the establishment of

the seminary in their areas and wanted to hear theological lectures. Finally on March 17th of 2005, online lectures were made available. On April 17, the MIS was established with its first lecture given at the missionary training program of the Foreign Parish.

MIS is a theological seminary with the goal of training competent pastors who will work in the local mission field by systematically educating them with the five-fold

gospel of sanctification. Currently, MIS continues to hold biblical seminars in the US, Europe, and Latin America. The seminary is delivering God's will and providence to many pastors and church leaders.

Once they are awakened by the word of life, they can influence the members of the church they are pastoring. In this way, numerous souls can be led to become true children of God that God wants. Therefore, MIS is playing a big role in accomplishing

the Great Commission of the Lord by quickly spreading God's word and power to the entire globe in this end of times.

MIS is glorifying God with its vigorous ministry. Whenever the President Dr. Esther Chung holds seminars with the fundamental messages in Christian life such as 'The Message of the Cross,' 'The Measure of Faith,' 'Spirit, Soul, and Body,' 'Heaven' and 'Hell,' hundreds or thousands of pastors are touched by understanding

the spiritual meanings of God's word and want to work with Manmin Central Church. Hundreds of churches have already registered as branch or associative churches.

The headquarters of MIS is located in Seoul and it has campuses in Belgium, UK, Russia, India, China, Taiwan, US, Peru and so on. The students can also listen to the online lectures. If you log on to MIS website at [www.manminseminary.org](http://www.manminseminary.org), register as a member and fill out the form, the

The Manmin International Seminary (MIS) website

application is completed. The website is available in English, Russian and Spanish, and also, the Japanese curriculum started beginning in December of 2009.

### Education Period

One course lasts for 1 or 2 months and there are courses for local pastors and church leaders and workers. Students can graduate after they finish the two-year curriculum.

### Education Courses

The curriculum of MIS consists of the elementary course, 'The Message of the Cross,' 'The Measure of Faith,' 'Spirit, Soul and Body' and 'Prayer'; the intermediate course, 'The Holy Spirit,' 'True Blessing' and 'Chapter on Love'; and the advanced course, 'Heaven,' 'Hell,' 'Secrets to Church Growth' and 'Genesis'. There are the lecture series, 'Revelation,' '1 Corinthians' and 'Job' and special lectures such as 'Understanding the Difficult Passages'. Students should take all the subjects of the elementary, intermediate and the advanced courses as required subjects and they can choose to listen to lecture series and special lectures.

### Online Lectures and the Curriculums in Loca Campuses

After students finish all the subjects from the elementary to advanced course, MIS urges the students to visit our church if possible and have them attend Daniel Meeting, accompany parish leaders' visiting members and visit Muan Sweet Water Site.

## "Through MIS, I Found Christian Life Very Easy If We Really Love God"

Pastor Persiyal Rajadurai  
(Madurai Manmin Church)

I am pastoring Madurai Manmin Church, India. From the time that my father Pastor V. Rajadurai passed away, I have taken charge of the church. But if my life hadn't been changed, it would have been impossible for me to serve the church.

Even though my parents wanted me to become a servant of the Lord, I wasn't certain. I had many spiritual questions unanswered in my Christian life. Meanwhile, I got to read Dr. Jaerock Lee's books that contained clear answers to all questions.

Pastor Persiyal Rajadurai with her members

Madurai Manmin Church

The first book I read was Dr. Jaerock Lee's testimonial memoir *Tasting Eternal Life before Death*. Greatly touched by this book, I wanted to study the word of life preached by Dr. Jaerock Lee. Fortunately, I had the opportunity to study at the MIS India campus and started studying course materials from 'The Message of the Cross' onwards to 'Genesis,' and I discovered the evident love of Father God, Jesus Christ and the Holy Spirit, who fulfilled the providence of salvation for us.

Realizing this love, I shed tears several times. And tears flowed down my face while I studied 'The Measure of Faith,' 'Heaven I, II' and 'Hell.'

Previously, I thought Christian Life was just difficult. But after studying with MIS I came to know that Christian life is not difficult to lead, if we really love Father God. I could also break away from my wrong ideas about faith.

Even though the Bible clearly defines what faith is, I couldn't understand it. Simply saying, I had only fleshly

faith, and I couldn't find what kept my spiritual faith from growing. But through MIS, I could find the cause and came to know how to solve my problem. I learned that we have to obey the word of God with love toward Him, throw away all forms of evil and fight against sins to the point of shedding blood.

I shared Dr. Jaerock Lee's testimony and sermons with one of my college friends who was a non-Christian. She was Hindu. I gave her Dr. Jaerock Lee's testimonial memoir *Tasting Eternal Life before Death*, and after reading it, she accepted Jesus Christ and gave this book to some of her neighbors.

My vision is to spread this holiness gospel in every corner of Tamil Nadu State, Southern India. I also wish to help people who were raised in a Christian family but still do not clearly understand the word of God.

I want to thank Dr. Jaerock who changed my life, authored many books spreading the holiness gospel to many people and established MIS.
